INSTALL MANUAL

STEP 1: Create a new database and import the **Database**. This can be found in the directory **MySQL**

The screenshot shows the MySQL Import wizard interface. At the top, there is a navigation bar with tabs: Structure, SQL, Search, Query, Export, Import (selected), and Operations. The main area is titled 'Import' and contains three sections: 'File to import', 'Partial import', and 'Format of imported file'. In the 'File to import' section, there is a text input for 'Location of the text file', a 'Browse...' button, and a note '(Max: 51,200 KiB)'. Below this is a dropdown for 'Character set of the file' set to 'utf8' and a note 'Imported file compression will be automatically detected from: None, gzip, zip'. The 'Partial import' section has a checked checkbox 'Allow interrupt of import in case script detects it is close to time limit. This might be good way to import large files, however it can break transactions.' and a text input for 'Number of records(queries) to skip from start' set to '0'. The 'Format of imported file' section has a radio button selected for 'SQL' and an 'Options' box containing 'SQL compatibility mode' set to 'NONE'. A 'Go' button is at the bottom right.

A tutorial video can be watched at: <http://www.youtube.com/watch?v=fywMpgFzpKk> or contact your webhosting for more information.

STEP 2: Open the php file: **antet.php** in the directory **WEBSITE** and change the settings.

```
$db_host="localhost"; $db_user="username"; $db_pass="password";  
$db_name="database";  
$url="http://www.yourwebsite.com";  
$paypal="your@paypalaccount.com";
```

The second file you have to change is **cron.php**

```
$db_host="localhost"; $db_user="username"; $db_pass="password";  
$db_name="database";
```

STEP 3: To set the phone payment system you have to click on the banner:

If the banner isn't working, use this link:

http://www.123ticket.com/Public_IA/affiliation/redirect_aff_signup.php?mid=1524251

STEP 2: Signup for an account. After this, go to:

http://www.123ticket.com/Public_IA/affiliation/redirect_aff_signup.php?mid=1524251

STEP 3: Click at Install 123TICKET and choose **simple installation** or go to

http://www.123ticket.com/private/prv_register_site_d2.php

Fill in your website details:

1. ENTER THE SITE ON WHICH 123TICKET WILL BE INSTALLED

You can have as many sites as you wish, without limit. It is simply necessary to follow the registration process for each new site.

URL OF YOUR SITE	<input type="text" value="http://www.yoursite.com"/>
CATEGORY	<input type="text" value="Others"/>
NAME OF SITE*	<input type="text" value="Call Credits"/> 60 char max

After this click next.

Now you have to fill in the redirect location. This must be:

<http://www.yourdomain.com/called.php>

INDICATE THE URL OF THE PAID CONTENT

Enter the URL of the HTML page that contains the content that you want to charge for. This page will automatically open in your browser once the purchase has been effected and the access code has been entered.

URL OF PAID CONTENT	<input type="text" value="http://www.yoursite.com/called.php"/>
---------------------	---

Select a name below for this paid content. This name will only be used in your 123TICKET control panel to facilitate management of your site and contents

NAME OF PAID CONTENT	<input type="text" value="Call Credits"/>
----------------------	---

DONT CHANGE ANYTHING ELSE, SCROLL DOWN AND CLICK ON THE NEXT STEP

Now choose the option: iframe html.

OPTION IFRAME HTML

```
<!-- 123TICKET SCRIPT TO INSTALL TO YOUR ACCESS POINT -->
<center>
<iframe name="123TicketIframe" src="http://www.123ticket.com/Public_IA/iframe/payzone.php?IDS
</center>
<!-- END OF THE 123TICKET SCRIPT -->
```

Right now you have to open the php file **vipbuy.php**. This can be found in the directory **WEBSITE**. Search for:

```
<!-- START CHANGE PHONE PAYMENT SCRIPT 123TICKET.COM -->
```

```
<iframe name="123TicketIframe"
src="http://www.123ticket.com/Public_IA/iframe/payzone.php?IDS=29738&IDD=38316&login=5093027&brokerid=&extlogin=&my_var_p=&my_var_1=&my_var_2=&my_var_3=&my_var_4=&my_var_5=&ret_pin=1&target=_blank" BGCOLOR="white" width=403 height=320 marginWidth=0 marginHeight=0 frameBorder=0 scrolling="no"></iframe>
```

```
<!-- END CHANGE PHONE PAYMENT SCRIPT 123TICKET.COM -->
```

Change this code with your own code.

The final step is to open the php file: **called.php**. This can be found in the directory **WEBSITE**. Search for:

```
<!-- 123TICKET SCRIPT TO PROTECT YOUR PAYZONE AREA -->
<noscript>
<meta http-equiv="Refresh"
content="0;URL=http://www.123ticket.com/Public_IA/check/error_code.php?IDS=29738&IDD=38316">
</noscript>
<script language="Javascript"
src="http://www.123ticket.com/Public_IA/check/chk.php?IDS=29738&IDD=38316"></script>
<!-- END : 123TICKET SCRIPT -->
```

Change this code with your own protected code. This can be found on the same page as the iframe code.

STEP 4: Upload all the files in the directory **WEBSITE** to your webhosting.

STEP 5: The final step is to configure the cron settings. This is needed for some of the Game Credit options. This is what you have to do:

Open a shell and type `crontab -e`. Then add this row in your crontab.

```
0 * * * * php "path to your website dir"/cron.php
```
